Let me inform you that 90 per cent of the Populist party are native-born American citizens, comprising mostly the stordy farming ele ment, which for years the statesmen of both the old parties proudly alluded to as the "bone, sinew and stability of the country." These men are intelligent, patriotic and true, and are called Anarchists because they have begun to hink, and the result of their thinking will be a surprise party next November.

Again, there were more delegates in our con-
